ORGANIZATION

HISTORY

- Thermo-Clean started out in 1989 as a subsidiary of Jos Mol Coatings nv, which handled the distribution of powder coatings in Belgium and Luxembourg manufactured by Teodur (Herberts).
- During the 1990s, Thermo-Clean waxed to become a major player on the Belgian market for the paint stripping of all kinds of metal parts.

New production sites:

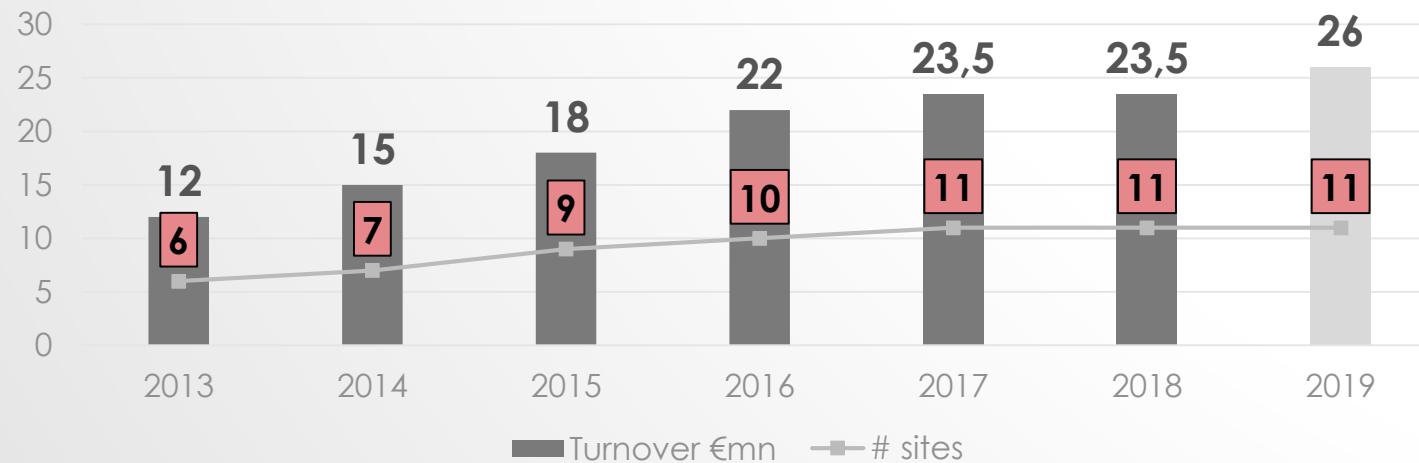

- 1999: Thermo-Clean France ~ Site Rhône-Alpes ~ Lyon (FR)
- 2003: Thermo-Clean Wallonie-France Nord ~ Ghislenghien (BE)
- Robert Mol, the founder's son, becomes CEO in 2005.
- New production sites:
 - 2008: Thermo-Clean Thüringen ~ Lederhose (DE)
 - 2012: Thermo-Clean Niedersachsen ~ Hatten (DE)
 - 2013: Thermo-Clean Bayern ~ Garching (DE)
 - 2014: Thermo-Clean Bratislava ~ Zohor (SK)
 - 2015: Strunz Anlagentechnik ~ Altdorf (DE)
 - 2015: Thermo-Clean Baden-Württemberg ~ Horb (DE)
 - 2016: Thermo-Clean Nederland ~ Rotterdam (NL)
 - 2017: Thermo-Clean France ~ Site Alsace ~ Bartenheim (FR)
 - ...

COMPANY INFORMATION

- Headquarters at Heusden-Zolder in Belgium
- Activities in more than 20 countries
- Number of sites: 11
- 200 employees
- Group turnover: € 23,5 mn in 2018

CARTOGRAPHY OF OUR SITES

OUR ACTIVITIES

PAINT STRIPPING

- Hooks, (multi)jigs, grids, skids, etc.

CLEANING

- Parts of the plastics industry, filters, heat exchangers, etc.

SERVICES

- Control & logistics of paint shop parts
- Specialized services

PAINT STRIPPING

THERMAL

CHEMICAL

THERMAL PAINT STRIPPING

THE PROCESS

- Paint stripping by gasification at 430°C of organic components
- After treatment:
 - Blasting off
 - Blasting with grid / corundum
 - High pressure cleaning
 - Staining and passivation
 - Glass bead blasting
 - Dry ice cleaning
